

## Canadian Practice – National Guidance and an Owners Program to Manage Public Safety

### Abstract:

Mr. Tony Bennett, Director of Dam and Public Safety for Ontario Power Generation, Chair of ICOLD's Technical Committee on Public Safety Around Dams and lead for the CDA Working Group on the topic, will present on the development of the Canadian Guidelines for Public Safety Around Dams, and key elements of the program as it has been implemented throughout Canada, and at Ontario Power Generation in particular. The discussion will include the challenges of managing public safety risks, and will provide an update on the work being carried out by ICOLD.
